HAVAS' AGENCY

As foreseen yesterday, Sr Braancamp and his Cabinet have resigned 'en masse' and their resignations have been accepted.

The news of the death of Don Carlos is not true.

THE LOAN

The negotiation of the Railway loan in this market is another victory for the Roca administration, a victory which, viewed from a certain standpoint, may be considered even greater than the 20,000 square leagues of Rio Negro territory given to the Republic by the zeal and genius of the young man who now rules this country.

Up to 4 o'clock on Wednesday afternoon, the very day on which the business was concluded, there were hundreds who believed that, after all, the loan could not be done here; that the difficulties in the way of powers etc. were too great, and that the Government pretended to too much in departing from the established custom of sending a special agent to Europe; that to raise the loan it must be confided to a London banker; but Pres. Roca, from the very outset, had said that the business should be done here, and, as the result has proved, be carried his point.

The rate at which this loan has been done, although nominally 82, is virtually for the country over 90, since the product comes to the Government in clean, net cash, free of commissions, charges, personal expenses etc.; and should anybody like to enquire into the net returns of previous loans, it remains but for the Minister to show the accounts in the Treasury department, which will more than establish the truth of our assertion.

One of the gravest of all errors is to suppose that this loan impoverishes the country, harasses the Treasury, or increases its obligations. On the contrary, if the money is well and economically spent, it will enrich the Republic by aiding the development of its resources; and the proper title of this loan is not a Railway, but a Wine and Sugar 'emprestito.' This loan is destined to stop our imports of these articles, and supply this market with these rich and valuable staples, which to the present we have produced but could not consume, for the want of cheap transit, and of which, the returns of our Custom House full well tell us, how many millions and millions we imported monthly.

It is an indisputable fact that the poorest countries are those which owe least, and the richest of all those that owe the most. We cannot, therefore, accept the theory that the present loan, by increasing the country's obligations, impoverishes it; on the contrary, nothing bears within its womb greater fructifying powers than well-invested capital; and if, as we feel confident, none of the proceeds of this loan will be employed in putting down civil war or fighting our neighbours, there is really no disguising the blessings which this new 'emprestito' is destined to secure.

The onward march of the Argentine Republic was never at any period of its history more marked than at present. It is not within the four corners of the Bolsa or by the chalked figures on the blackboard that one can judge of what is going on. Our lands are at last asserting their value, and the tide of foreign capital now flowing into the Plate for land investment is greater than the loan itself, and greater than even the very wisest of us imagine. *Peace, Prosperity* and *Progress* should be inscribed on the new bonds before issued to the public. The millions this loan secures to us will more than ever establish our National Government and secure to the country peace. The millions that come to us from these bonds will add to our prosperity by being faithfully and economically invested in remunerative, self-supporting and self-paying enterprizes, and the proceeds of the sale of these bonds will be soon in the fruitful fertile soil of the Interior, opening up new highways through the pathless forests of untrodden territory, plunging the locomotive through districts that never yet echoed to the hum of industry or the noise of busy man, and driving out with the shrill whistle of the engine the last screech owl, whether in Jujuy or Calle San Martin.

The terms of this loan we have already given to our readers; they are stamped with a fairness and a simplicity that speak the men who negotiated it. That the Government could have secured better terms, had special agents been sent abroad, or the bonds been hawked through London or Paris, we very much doubt. The business has been done, and done well, and we compliment the Government that has concluded it and the agent of the European bank who has so successfully obtained it.

THE FUTURE OF BAHIA BLANCA.

The sailing of the Villarino for Bahia Blanca and Patagones, full to the hatchways with a general cargo for the first-named port, attracts attention to the increasing trade with it and the progress of a territory which, only two or three years ago, was the head-quarters of the marauding Indians of the Pampa.

As soon as life and property were made secure there, people did not hesitate an instant in settling on camps where those tribes which can only exist on fertile spots held sway: and now English estancieros have literally inundated the district with cows and sheep. So rapid has been the progress that, in the town of Bahia Blanca, as well as in its camps, the price of everything has risen. Houses and lands which, in the beginning of January last year were to be had for almost nothing, are now valuable. At that time a nice, 7-roomed house in the town could be purchased for $12,000 m|c, and now it cannot be had for $75,000. It is the same in the camp: What was worth $10,000 then is worth $150,000 to-day, and so on.

The number of lighters in the port is quite unequal to discharging the vessels that arrive with cargo, which is immediately sent to the camps. Another Villarino would not suffice to take down all the goods ordered. The Teresa Favona, Monk, Verdi, Roger, Puan and several other schooners are crammed with cargo for that port.

Meantime, the Government is doing everything possible to expedite the departure of the expedition charged with laying down buoys in the port, so that vessels can enter easily and load and discharge rapidly, thus saving risk and expense. It is also hoped that a Navy Port will be made, as the place affords every advantage. It is also said that a saladero, graserias and barracas will shortly be established. A territory of so many thousands of leagues of good camp, down to the Colorado, and with so many estancieros on it, must take the nearest outlet for its produce, and that is the Port of Bahia Blanca.

A good road from the port to the town is also being planned, to prepare for the increase of trade. Another thing we shall soon see is a big ship from Europe consigned to that port with cargo, as most of the settlers being foreigners with capital, they will send their orders direct and thus get their goods cheaper; and as there is water enough, a big ship could call here, leave part of its cargo, and then go on to the Pacific, as the steamers of the P.S.N.C. do at Montevideo.

The climate and soil are equally favourable to the agriculturist and the breeder of stock; security for life is guaranteed, and the rapid increase in prices and population mark this region as the first in the Republic, as everything is in its favour. Its breezy and healthy climate, fertile lands, the best port in the Republic as an outlet for its trade, ensure a future of great prosperity to Bahia Blanca.

The Italian Exhibition building cost $400,000. It is pleasant to think that the spirited workmen who got it up will get back their money with a thumping interest. They well deserve it.

STATE OF IRELAND

Dublin, Thursday Night.

A sale was held at Glasneven, at the suit of Lord Talbot de Malahide, of three horses that had been seized by the sheriff for the payment of a year's rent due by a tenant named Maran for a farm at Malahide.—Mr. C. Dillon attended for Lord Talbot, and Mr. Goddard for the Property Defence Association. There was no bidding until Mr. Goddard bid 5s. As soon as it was seen that Mr. Goddard was determined to buy if no one else did, the horses were bought in by friends of the defaulting tenant at prices which nearly realised the amount of the claim. There was a considerable force of Metropolitan police present, but their services were not required. There was no attempt at a disturbance, the crowd contenting themselves with occasional cheers for Mr. Parnell.

The Emergency Committee of the Orange Institution forwarded men by the nine o'clock train this morning to Parsonstown to bid at a sheriff's sale to be held to-day at two o'clock, so as to prevent the sale being rendered abortive by the agents of the Land League. By the nine o'clock train this morning men were also sent from the Broadstone to assist in the service of writs on the property of Mr. Levinge, which is situated near Athlone, as no person in the neighbourhood could be prevailed upon to serve the documents. The committee intend to supply Protestant tenants from Ulster, and if necessary from England and Scotland, to occupy farms in the south and west of Ireland from which followers of Mr. Parnell have been evicted for refusing to meet their legal liabilities. A telegram from Parsonstown says that the agents of the Emergency Committee were met at the railway station there by an escort commanded by Inspector Fulton. The military had to be called out, The cattle were bought by defendant, and the amount of the decree realised. Great excitement prevails, and a riot is expected. Military and police are guarding the hotel where the agents are staying.

In the Common Pleas Division today, on a motion to remit to the County-Court Judge of Galway an action for a year's rent, the motion was opposed by the plaintiff, who, in an affidavit, swore that when he asked the defendant to pay he said. "Do you want to make me a marked man in the country? No one is paying rent. I am a member of the Land League, and I am afraid to pay." Chief Justice Morris said it was evident the man only wanted some gentle pressure, and Mr. Justice Lawson said they would give him what he wanted by refusing his motion with costs.

The Home Rule League held a meeting to-day, when the following resolution was carried:—"That the council view the action of the British Government towards Ireland as unconstitutional, disappointing, and at variance with professions and declarations of Mr. Gladstone and other prominent members of the Administration prior to the late election, and believing that the British Parliament is unable, both from its unwillingness and ignorance, to legislate justly for their country, it deems it of paramount importance that Mr. Parnell should at the earliest moment bring forward the question of Home Rule for discussion and force it to a division."

The French steamer Niger sails today. As it is a 'dia feriado', the mail bags close at the General Post Office at noon, for stamped, at 11½ a.m. for unstamped, and at 11 for registered letters.

Our financial and commercial friends have at last got the Loan off their minds. There has been such a lot written in the papers for the last month on this subject, that even people who would find it difficult to raise a loan of ten paper dollar to save their lives were beginning to take an interest in it, the mere word *Loan* having an irresistible fascination for them. It's all over now, however. The Loan is done, well done, and quickly done, and by a *Standard* subscriber.

There was a big conflagration at Barracas yesterday, in the stores of Saavedra, used as a Customs' deposit. The place took fire at 1 o'clock and, being full of kerosene, blazed away terribly; there were also 600 barrels of tar, 400 cases of sulphuric acid, 105 barrels pitch and 300 jars of turpentine. One hundred Bomberos and policemen soon arrived from town, but could do nothing, except to cut off the tar deposit, which was saved. The loss is 3,000,000 m|c. The water pumped on the flames only increased them. 568 cases of kerosene belonged to C. S. Bowers & Co, 250 to Artagaveitia, and much of the sulphuric acid, resin and soda to McKechnie. The fire originated in the repair of some of the kerosene cans, which were delivered in the morning, damaged. Crowds from all quarters assembled to watch the fire, which was the fiercest seen for a long time in this city.

The Rev. James Smith will preach on Sunday next at Quilmes, in Mrs Sanders' School-room, at 4.15 p.m.

Portugal is an irreproachably repectable Kingdom and a model for all the small fry of European nations, but it may be questioned if any possible event that could occur there, short of the destruction of Lisbon by another earthquake, is considered worth a Havas telegram by the cosmopolitan newspaper readers of this city. It is difficult to describe the feelings of a subscriber who opens his morning paper, after his first mouthful at breakfast, eager for the very latest from England, France, Germany, Constantinople, Vienna, or St. Petersburg, to find that Havas has nothing more stirring to tell him than that the Peers of Portugal have passed a vote of want of confidence in the Cabinet of that country. There are not, perhaps, in town half a dozen people who care a button about what the Peers of Portugal do, have done, or may do for the rest of their natural lives; and we suggest to the Havas Agency in Europe that, with so many vital events occurring in the great nations of the world, at the Cape and elsewhere, it would not be an effort beyond its powers to select some more important news for its supporters in South America than the doings of that venerable assemblage called the Portuguese House of Peers.

Captain Manton's Gower-Bell 'alta voz' Telephone line between the Boca and the Bolsa was completed yesterday. Next week the line to the Boca and Barracas will be opened.

The latest papers from Panama are to the 3d of February. The value of house and landed property on the Isthmus is already rising, in view of the wave of prosperity expected from the Canal. From 50 to 100 per cent. advance in rents and the price of rural land is already established. Some London capitalists have taken the Zaruma gold mines of Ecuador in hands, and expect large profits. The first detachment of engineers for the Canal, 40 in number, arrived at Panama on January 29th, and met with an enthusiastic reception. Colon, however, will be the headquarters.

New York High Life showed better taste than London in dealing with Miss Bernhardt, the famous actress. Her professional visit was the greatest of successes, but socially she was tabooed: nobody invited her; nobody called on her; nobody, in a society sense, recognized her existence. So says a New York paper, and New York Society was, undoubtedly right.

There will be an Epsom-like rush to old Lanus to day to witness the Southern Railway Athletic Sports, which have now become one of the institutions of the country. The programme includes no fewer than 24 events, most of them flat races for different distances. The arrangements for refreshments, &c., are most complete, and, of course, those of the railway are 'á la altura' of the requirements of the day. We remind those interested that the special train for the employées and their friends leaves the Constitucion station at 10 o'clock sharp.

The auction of Dean Dillon's furniture comes off to-day, at his residence on the Flores Road. We have already advised those on the lookout for nice furniture not to miss this sale.

The Soiree of the Scotch Sunday School will come off on next Wednesday evening at the Coliseum, and the children are requested to be there punctually at 7 o'clock p.m, A limited number of tickets will be issued to the parents of the children and those interested in the school, as also to those friends interested in suburban Sunday schools. Parties who may wish to contribute anything to the tea-table are requested to send it to the Coliseum between 10 and 11 o'clock on Wednesday morning.

Many of our readers may be anxious to purchase Mme. Eduarda Garcia's charming book 'Cuentos,' for their children's perusal. It is to be had at Messrs. Jacobsen & Co.'s, 242 Calle Florida. The finely-bound copies cost $40, and the others $25.

The Germans in Rosario dined together on the 22nd in honour of the Emperor William's birthday, at the Hotel La Paz. The soloon was gorgeously decorated, and the 'menu' superb.

The drought in Banda Oriental is said to be very bad. The *Telegrafo* says that in many districts the herds and shepherds are looking after their 'ganado' on foot, as they are left without horses. How is this? If there is enough grass left to feed the cows and sheep, there ought to be enough for the horses.

On the Paris, Lyons and Mediterranean Railway a new corps of porters has been established to specially assist old ladies and gentlemen, children, ladies travelling alone, sick people etc, in and out of the carriages, to see after their luggage, call cabs for them etc. This is a peculiarly French idea, and an excellent one. The classes referred to meet with no special attention in other countries, and we fear are considered rather a nuisance in fast-travelling England.

Captain Crowell, of the Rebecca Crowell, gave a dance on board that vessel in the port of Rosario some nights ago. The splendid ship was decorated for the occasion, and an awning over the deck converted it into the 'ne plus ultra' of a ball-room. There was some little difficulty as to the ladies getting up the sides of the big merchantman, as the way provided was a chair, in which to sling them up. All demurred at first, but finally one, pluckier than the rest, led the way, and was run up in a way she declared to be 'delicious,' and on this all the other fair guests immediately followed suit. Dancing began at 10 o'clock, and was kept up till a late hour. The supper could not be surpassed by even the Aguila or Cafe de Paris. Amongst those present were Mr and Mrs Perkins, Mr and Mrs Caraffa, Mesdlles. Clara Perkins, Esmeria and Adela Caraffa, Maldonado (2), Garcia (2), Celina Lapride, Sophia Martin &c., and Messrs. Brito, Thompson, Martin, Cilveti, Ramsay, Paz, Davis, Dr Homan and others. The fun was not over till 4 o'clock in the morning, when the crew gave a thundering farewell cheer as the last of the guests was swung into the boats, which at once made for the shore.

The ladies of the French Charitable Society 'La Providence' intend holding a grand Bazaar at the Skating Rink on the 9th prox. It will be a grand affair. Five tickets of $10 each are being sent round to families, which will certainly not hesitate to accede to such a modest demand in Charity's name.

The story got up about a man having been arrested at the opening of the Italian Exhibition for lurking near President Roca in a suspicious manner is the purest of fictions. We have never seen our native colleagues in such humour for publishing 'crammers' as they are at present.

The *Oeste* of Mercedes is dead. The good it did in the way of senseless opposition was, happily, interred with its bones.

We heartily join the *Tribuna Argentina* in congratulating the country on the salutary change which, our colleague asserts, is rapidly taking place in the ideas of Argentine youths as to a career in life. It is a most excellent thing for the Republic if young Argentines are at last pitching over the Bar and places under Government, for commerce, industry, agriculture, sheepfarming and other independent pursuits free from the toadying and other demoralising influences of 'empleomania,' politics etc. The country is to be congratulated on the happy change.

H.M.S. Garnet arrived yesterday at Montevideo from the Falkland Islands. She is under orders for home.

Where on earth have our native colleagues fished up the ridiculous invention about the arrival here of Sir Burdett Coutts, brother of Lady Burdett Coutts, with his 200 pairs of boots, his fancy for ugly old women and his carpetted stables? 'Sir Coutts' has not been welcomed on 'Change yet.

Mr. Alfred Miles, of the London and River Plate Bank, Cordova, gave a farewell dinner last week at his residence there, to Mr. J. M. Wright, on his leaving for England with his family. There were over thirty guests, and, after a superb entertainment, the stirrup-cup was drained to 'Auld lang Syne, all present wishing the guest of the evening a prosperous voyage home.

We deem it a duty that we owe to the 'beau monde' to accede to the request of a fair subscriber to publish the followiug, as she assures us, in a graceful note, on the most odoriferous cream-laid, that all the ladies in town are 'dying' to know what the Baroness Burdett-Coutts wore at her wedding;—

"For the information of your lady readers I may state that the Baroness Burdett-Coutts's wedding dress was composed of cream satin velvet brocade, trimmed with bows of ribbon and white marabout; bonnet to match, trimmed with stephanotis and white heather, lace lappets and ancient Spanish veil of very fine lace. Her ladyship's only ornaments were a locket of antique gold, the gift of her sister (Mrs. Trevanion); a cat's-eye bracelet set in diamonds, the gift of the bridegroom This stone is of unsurpassable beauty. Her ladyship's travelling-dress was composed of hellitrope plush, trimmed with brown marabout feathers, bonnet and muff to match. The dress was of Bradford manufacture, and very lovely in its delicate tint and rich material."

The new National Clock in New York almost rivals that at Strasburg. It cost £10,000 and weighs 400 lbs. It gives the time of 40 cities of the United States, and the movements of our Planetary system. The quarter hours are struck by figures representing Infancy, Youth, Old Age and Death. As the hours strikes Washington appears in his Presidential Chair, with the Act of Independence in his hand; a door opens and all the Presidents of the United States, down to Mr Hayes, pass before the Father of his Country, each bowing low. Washington stands up while his successors pass before him, and when Mr Hayes has bowed resumes his seat. What a wonderful clock.

CHILIAN TRADE.

ON 'CHANGE.

	March 24th, 1881
Patacones	28.95
Cedulas A	93⅛
National Bank Shares	78¼
Bonos Provinciales	1½ premium.
Italian Bank Shares	12½ prem. gold

This was a day of great excitement on 'Change, and the gold ring opened with a roar that might be heard down Calle San Martin The negotiation of the loan after the Bolsa closed yesterday shook the very floor of the Bolsa under the feet of the bulls; nevertheless so firm was the gold market that it took all the push of the gold bears, of the ring, and of the loan to break the mystic figure of 29. The fight was a hard one, but the country has won it; gold for April dropped to 28.75, but closed at 28.80, and for May was done at 28.70. The total sales of the day reached 1,375,700 pats., which though immensely over the daily average is not by any means large, when we take into consideration the events which convulse the market. One or two well known goldholders offered large sums at 29 cash, but they could not be sold, and in the present state of the market the only way to sell gold in large amounts is on time. The article in to-day's *Republica* on the resumption of specie payments and the opening of the Oficina de Cambios was the talk of the whole Bolsa; as a matter of course the ring is entirely opposed to our colleague's views, but we believe we are on the high road to specie payments, and the end of the year may bring us patacones at $25 m/c, and exchange on London at 51d.

Cedulas ruled very quiet at 93⅜ cash and 94 for the end of the month; the stock looks well, and far more likely to rise than fall. National Bank shares are very steady, and buyers for the end of April at 79½. Bonos Provinciales one ot sold at 1½ prem, stock in good demand. Italian Bank shares one lot sold at 12½ gold prem., buyers at this rate.

In other stocks nothing done to-day, but all stocks look advancing, and many parties say there is a scarcity of stocks in the market for the money seeking investment.

The final launching of the Railway Loan for £2 millions in this city was the talk of the market, and is regarded as a new departure for this country; and if the money borrowed is well and economically spent the business will prove perhaps the best ever done. Some exception is taken to the price at which the business was concluded, and as the Riestra Loan is 95, and the Public Works loan at 93, it seems to many that 82 is a very low figure, but, perhaps the best answer that can be made to this is, that no previous Argentine loan has ever netted to the Government so high a figure as the present, and the new loan, although, paying the same interest, has much less amortization than the other Argentine loans; moreover it must be borne in mind that the quotations of the Riestra and Public Work loans on the London stock exchange will be materially affected by the introduction of this new loan, and the banks and bankers who have taken this Railway loan firm at 82, will do a very poor business and hardly cover themselves if they do not launch it at 88 or 90. The syndicate that has carried the business is one of the strongest—

Comptoir d'Escompte.
L. R. Cahen, of Antwerp and Paris.
Banque de Paris et des Pays Bas.

This syndicate is well able to take the whole loan for its own account and wait until the most favorable state of the European markets to open the subscription. As for the Comptoir d'Escompte, it is one of the first banking associations in Europe, and latterly has sprung into immense business, as appears by the following, which we find in one of the latest *Economists*—

"The principal issues on which the Comptoir d'Escompte took part during the year were the Indian Government Loan of 31 millions of rupees, of which this establishment took the half, and paid the instalments through its agency in Calcutta; the issue of 44,000 bonds for the North-East of Switzerland Railway Company, and the 4 per cent Norwegian Loan, which the Comptoir d'Escompte obtained for itself and its allies—both of these were successful—and the Portuguese Three per Cent. Loan of 219 millions, the demands for which were so large that the subscriptions had to be considerably reduced. The Comptoir d'Escompte has created a branch at Melbourne, which has been open since the 1st January last. The profits for the year amounted to 7,392,760 francs, an increase of 336,000 francs on 1879. The dividend for the year was fixed at 46 francs or 9 1|5 per cent, against 44 francs in the preceding year. A sum of 19 francs per share having been distributed in August last, the balance of 27 francs will now be distributed."

The £200,000 exchange first payment or account of the loan was delivered in bills, and it was said on 'Change that the Government broker was busy all day negotiating th se bills, but the business was kept up as a great secret. However, when the bills are passed it will at once tell on the rate, and the market will soon know of the transaction.

The sales at the ring were—
For cash 96,900 at 28.95–29.–28.95
For March 26th 50,000 28.95–29.
For March 31st 539,000 29.–28.95
For April 30th 600,000 28.80–85–75–80
For May 31st 90,000 28.70
Sales, 1,375,700.

Cedulas—
For cash A 6,900 at 93⅜
For March 31st A 6,000 94
For April 30th A 10,000 94
Sales, 22,900.

Nat. Bank Shares—
For cash 19 shares at 78½
For March 31st 200 shares at 78½
For April 30th 200 shares at 79½

Prov. Treasury Notes—
For cash 100,000 at 1½ premium.

Banco de Italia Shares—
For cash 100 shares at 20½ premium, gold

At afterhours gold ruled weak, sellers offering all round, and much gold offering cash at 29 and 28.95, but could not be sold. Sellers for April offering at 28.80, and some lots sold at 28.75.

The great news on 'Change this afternoon was the stoppage of the Mule steamers by order of the British Government; it seems telegrams from the English War Office were received to that effect, and the news spread like wildfire in foreign circles that the Boer war is over and peace made with the Transvaal. It is uncertain yet what will be done with the mules, but supposed that Baltar & Quesada will close the drop scene on a war that all regretted, and might so easily have been avoided.

Exchange ruled very active to-day; a million of francs passed at 5.26 and taken by two banks. Bills on London offering at 49½ and passed at 49⅝. Exchange looks rising. Respecting the Government exchange nothing was known, but well informed parties said the bills will be sold here.

The fire in Barracas covered the South end of the town with smoke, and at first people said the Gas House was in flames, but later on it was known that a Kerosene Custom Deposit in South Barracas, once the Saladero of the late Don Tomas Armstrong, was in flames, and 4,000 cases kerosene ignited. We are not sure if insured. We give particulars in another column.

Two cargoes of salted hides reported sold to-day at reserved price, but the hide brokers said that the price of one cargo is 50 rls.

Messrs Forrester & Co. have sold four cargoes of coal—

One Newcastle at 10
One Glasgow at 9
Two Cardiff, reserved.

The same firm has also sold two cargoes of pine, one spruce and the other pine.

Mr Gregory and Mr Soames, of the Carcarañas, were welcomed on 'Change; they report camps good up there and everything doing well. Mr F Rath leaves for Europe in the Dalton; he has rented his estancia, 1½ square leagues, in 9 de Julio, for 95,000 m|c per annum; he bought it in 1873 of Mr Neild for 30,000 m|c. We hope to see him soon back.

Mr Bullrich came on 'Change at 2 p.m. with beautifully printed pamphlets of the stock he begins to sell on the Blandengues estancia to-morrow. The sale is most important, as the stock is splendid.

The bids for the Post Office printing contract for the year were opened as follows—

Bernheim and Walls	14,729
Jacobsen & Co.	13,346
Barbieri Bros	13,741
Nacion	12,908

The National Public Credit Office publishes the usual notice for payment of coupons maturing 1st April.

The Copernicus will be up in the morning. The Tycho Brahe goes to New York on 4th prox.

Messrs. Floro Castellanos and Leon J. Isaac leave in Niger for Europe.

We heard on 'Change that there was some movement this morning in wools. Nearly everything entered sold. Messrs. Duggan sold one lot at 95, and Mr. Moores, in the South market, another lot at 80.

The telegram which we published this morning should have read 32 per cent wool instead of 31 per cent as incorrectly printed.

Parties who have inspected the deposit of the new Patagonian coal in Barracas, report the coal as very slackish and easily injured by the sun, the coal is surface coal, but when they follow the vein deeper it will be better. At the same yard they have a large quantity of Patagonian wood, chiefly birch.

To-day Captain Manton telephonically united the South Market with the Bolsa, which is a grand step in advance. Captain Manton has passed the last week on the tops of the houses, and had many difficulties to establish his line which, we trust now, will pay him well for all his trouble.

Mr W Sampson took leave of his numerous friends on 'Change; he leaves to-morrow at 2 o'clock for the French packet Niger. We all hope to see him soon back, as he is much and deservedly esteemed in the market. Captain Vine Hale, Commander of the new steamer Dalton was welcomed on Change. Mr Norton leaves in the Dalton for Rio and from thence for Europe. The following late news about the Antwerp province market, from Messrs Bunge & Co. of that city, under date February 24th, 1881, is important:—

Wool—

The market continues quiet and prices tend in buyers' favour. The day's value of an average B. Aires primera 30 per cent yield hardly exceeds fs.1.55. Arrivals continue large and a general willingness to sell becomes apparent amongst owners. Buyers on their side seem little disposed to enter the market freely, and it becomes doubtful under such circumstances whether prices have touched bottom already.

The following is now our statistical position:—

	Bales.
Stock on 10th Feb, 1881	19,531
Arrivals from Buenos Aires	10,417
" Montevideo	1,163
" Rivers	40
	11,620
	31,151
Sales by private contract	621
Public sales	—
Transit	2,153
	2,774
Stock to-day	28,377

London sales opened on the 15th inst. in the presence of numerous buyers, and prices paid showed a decline of 5 to 7 o/o as compared with those paid in December. Since then various fluctuations have taken place which have resulted in prices now ruling a shade under those current at the opening.

In Havre public auctions have commenced on 22nd inst. and will close on the 26th inst. comprising 12,923 bales. Thus far a decline of about 20 centimes on January rates has been established, and owners seem willing to realise on this basis. In the two first sittings there have been 2,202 bales sold out of 5,799 bales offered.

Sheepskins—

The market is exceedingly dull, and prices are unsettled and nominal.

Sales, only 15 bales.
Stock, 1,010 bales.

Hides—

Since our last the market has presented few changes. The only feature which may be looked upon as encouraging to holders is the continued steady demand which has brought our stock down to about 140,000 hides. Prices, however, continue weak, and each transaction of some magnitude almost invariably carries along a fresh decline. The majority of the sales has been made in Uruguay cows 20 to 25 kilos for Cologne at prices varying from fs.70 to fs.73.

Killings in South America on 15th inst. amounted to 158,000 against 517,000 head same time last year.

Tallow—

After the late advance, business has fallen off perceptibly, and the unfavourable advices from abroad have weakened the market. After fs.88 having been vainly offered for mutton, there are now sellers at the price and no buyers. We quote beef fs.90, nominal.

Sales, 152 pipes and 12 hogsheads mutton.
Stock, 50 pipes, 121 hogsheads mutton, and 678 pipes, 22 hogsheads beef.

Hidecuttings—

Are mod rately active and prices steady.

Sales, 46 bales.
Stock, 412 bales.

Hair—

The demand continues sluggish and with quite a large stock the tendency of the market appears to be toward a lower range of values.

Sales, 57 bales.
Stock, 735 bales, 52 bags.

Horns and Pithe—

No transactions worth mentioning.
Our stock only consisting of 68,888 horns.

Mr Durand, in his important circular for the mail gives the following:—

"Wool—

Superior qualities	$110 to 120 m/c.
Good do	92 to 110 m/c.
General do	82 to 92 m/c.
Middling do	78 to 82 m/c.
Bad do	70 to 78 m/c.

"Sheepskins—

"October clip—Prices, $118 per arroba are paid for a goot lot.

"February clip—Prices $55 to 85 per ar.

"Arrivals of the fortnight are estimated at 345,000 ar. or 98,750 bales. Sales, 305,000 ar. or 87,140 bales, and stock on hand and in deposit 1,960,000 ar. or say 56,000 bales.

We have received the following letter for publication:—

Buenos Ayres, March 24th, 1881.

To the Editor of the *Standard*

Sir,

The writer of a letter contained in your issue of to-day, referring to the notice of the Mortgage Bank and the new rules established for the payment of coupons, has taken a very short-sighted view of the matter.

In the first place, it is not the employees of the Bank who have made the alterations and dictated the conditions requisite for the payment of the interest on the Mortgage Bonds.

Undoubtedly the affair of the stolen Cedulas, and the discovery of adulterated coupons amongst those that had been paid last quarter, is what has caused the Bank to take those precautions against surprise that have so offended your correspondent.

As far as can be learned from what was made public, the facts of the case are these:—Amongst the coupons paid by the Bank there were found duplicate numbers, and to the naked eye there was apparently no fraud; but with the aid of a magnifying glass it was seen that the numbers of the coupons belonging to the stolen Bonds had been adulterated; for instance a 1 was changed into a 4, or otherwise, and so on at the pleasure of the forger.

Of course the fraud is apparent when the Cedula, its stamped number, and its endorsement, is examined, and it is to be presumed that it is for this reason that the Directors of the Bank (not the employees) have ordered the presentation of the Cedulas, and a list of their numbers, bearing the owner's signature and address.

Judging from the amount of Cedulas issued by the Bank, at least forty thousand coupons are tendered quarterly for payment, and when your correspondent takes this item into consideration he will find that it is no easy matter to subject each and every one of these coupons to microscopic influence before the Bank employee can testify as to their goodness, and pay their value.

With respect to those parties whose Cedulas are deposited in Europe or elsewhere, their presentation within such short notice is simply impossible, but when the absence of the Cedulas is declared to be a fact by any respectable person, is your correspondent sure that their presentation will be enforced?

En nuestra casa, San Martin 51,
El Viernes 8 de Abril,
A las 2 de la tarde,

Venderemos al mejor precio y dinero de contado en uno o mas lotes y por cuenta del Sr D. Matias Ramos Mejia, este magnifico rodeo, compuesto de:

650 cabezas mestizas Durham, verdaderas Short-horn, que se pusieron en rodeo en un solo potrero, alambrado desde el año 1882, tienen por origen el troso mas escojido de la hacienda que vendio en esa epoca la afamada estancia del Sr Alzaro (de Canuelas) y nunca han sido servidas sino por toros puros de lo mejor, importados uno y otros de la renombrada cabaña de los 'Tapiales,' por cuya razon tiene este ganado la misma pureza de sangre, ofreciendo la ventaja que la pariccion de los ultimos anos esta toda orejana.

Es precisamente de este ganado de donde se extrajeron las magnigcas vacas que constituyen el conocido y acreditado tambo en Ramos Mejia, que siempre han estado servidas por toros puros de lo mejor en Buenos Ayres y que dan 22 a 24 cuartas de leche sin apurarlas.

En el rodeo que se vende hay gran cantidad de estas tamberas.

Se ve, pues, tomando su origen y la fecha (1882) que este ganado es clasificado de mestizo por su proprietario, cuando sus cruzas las clasifican hoy de ¾ y ⅞.

La venta se hara por todo lo que pisa.

Los dias Miercoles y Sabados se parara rodeo, y habra en la Estacion Maipu (F.C. del Sud) un breck a 4 caballos, que en 2½ hora conducira a los a los interesados a visitar las haciendas hasta Mari-Huincul.

Preparense los Señores hacendados
Para el Gran Remate especial
DE
ANIMALES FINOS
De las razas, vacuno, caballar y lanar
Del gran Establecimiento
BLANDENGUES
Partido de Chascomus
Sobre la via ferrea del Sud
Que tendra lugar los dias 25, 26 y 27 de Marzo.

Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.

Como las haciendas de que se trata son casi en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiento mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, puedan hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para tres dias.

El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.

Todos los criadores de la Republica saben que alli no se han encomiado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.

Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.

En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental e Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este ramate que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.

Hoy que esta demostrado de una manera ovidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres. Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais e importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

NOTICE TO SHEEPFARMERS—Sulphurous Black Soap, good and cheap, specially prepared for mixing with the tobacco used for curing scab in sheep. Manufactured by ARTHUR E. HILLIARD & Co., Great Southern Soap Factory

A FRENCH AUSTRALIAN LINE

Paris, Feb. 17th

A Bill is now before the French Chamber of Deputies, and will shortly come up for discussion, to establish a new subventioned service of mail steamers from France to Australia and New Caledonia. The motive put forward by the Government to justify the outlay for this new line of steamers is the same as that for which the Parliament was recently called on to vote the Shipping bounties, namely, the desire to render France independent of foreign countries for her oversea navigation. Those reasons are developed at some length in the preamble to the Bill, which is drawn up in concert by the Ministers of Posts and Telegraphs, of Marine, and of Finance. It is alleged, in the first place that if the French colony of New Caledonia has not realised the expectations based on its proximity to Australia, the cause is to be found in the want of expansion of French Shipping in those waters, and the insufficient communications between that Colony, France, and the other great colonial establishments on the route to Europe. In consequence of the insufficiency of Shipping under the French flag, France, it is said, is forced to purchase in England the Australian wool so largely consumed in France. The trade of France with Australia is carried on by foreign Shipping, and is entered as English—both the imports and the exports—in the Customs returns. The consequence has been that, in 1879, while the foreign trade of Australia amounted to 2,500 millions of francs, the direct trade with France was under 12 millions. The trade with Australia requires, therefore, to be stimulated by the opening of new outlets for the industrial productions of France, and the success of French productions at the exhibitions of Sydney and Melbourne, the comments of the Australian press, and the reports of the French Consular Agents all combine to encourage the opening of direct communication with Australia. In 1879, in consequence of proposals from the Governor of New Caledonia, the Ministry of Marine and the Colonies appointed a Committee to consider this question, and that body, after consulting with the great Steam Shipping Companies, proposed unanimously the establishment of a subvention Postal Line from Marseilles by the Suez Canal to Reunion Island, Australia, and New Caledonia. The scheme was submitted to the Department of Posts and Telegraphs, and on the 31st October last a decree was issued appointing a new Commission, in which the two Chambers and the principal administrative departments concerned were represented, to carry out the details. The principal Maritime Companies were invited to submit proposals. Some declined, and others made offers which were either too costly or did not suffice for the requirements to be met. One company propose to go to New Caledonia and thence to Australia by crossing the Isthmus of Panama, carrying the passengers and merchandise overland. A second tendered for a service by the Cape. Neither of these schemes was considered acceptable, and finally negotiations were opened with the Messageries Company to carry out the plan which had been originally adopted, as already stated, by the Commission at the Ministry of Marine. The voyage would thus be accomplished without breaking bulk. The Messageries Company has already a contract for the service from Marseilles to Aden, forming part of the line to India and China. From Aden there is a branch line to Reunion Island, also conceded to the Messageries Company; consequently, no competing line of steamers could be created between Marseilles, Aden, and Reunion, and the Government was placed in the alternative of charging the Messageries Company with the new mail service to Australia and New Caledonia, or making Reunion Island the starting point of the new line, or adopting the long route round the Cape. The first of those three courses was chosen, and the object of the Bill before the Chamber is to ratify a draft contract with the Messageries Company. The contract is for a direct service from Marseilles to Noumea, calling at Aden by the Canal, the Seychelles, Reunion Island, King George's Sound, Adelaide, Melbourne, Sydney and thence to Noumea. It provides for 13 voyages out and home annually, a total distance of 103,038 marine leagues (1-20th of a degree). The subsidy to be allowed was only fixed after long negotiations. The Massageries Company; after demanding a more considerable sum, at last agreed to a reduced rate of 32f per marine legue, or a total subvention of 3,297,216f per annum. That company, however, receives already a subsidy of 836,480f, or 38f 78c per marine legue, for the branch from Aden to Reunion, and it has been agreed that the 836,480f shall be deducted from the new subsidy, as the new line will permit the suppression of the branch from Aden to Reunion. The subsidy at present paid for the whole of the India and China line is the same as that for the branch to Reunion, or 38f 78c per marine league. That contract only dates from 1875, and the French Government now obtains a reduction of 32f. The preambleof the Bill here enters into considerations to show that the present contract is more favourable than that of English Government with the Peninsular and Oriental Company. It says:—

"England, who has just renewed her contracts with the Peninsular and Oriental Company, pays at the rate of 35f 6c per marine league on the India and China line, and 30f 64c on the line from Point de Galle to Melbourne, so that the average on all the English combined lines, India, China and Australia, is 33f 77c., against 32f for the projected French line. No doubt the objection may be made that the average of the English subvention from Brindisi to Point de Galle, and thence to Melbourne, or the two lines of the Australian mail service proper, is only 30f 7c per marine league. But even under that hypothesis the French service compares favourably with the English, considering the latter has been established 20 years, and is free from the heavy charges imposed on the French, especially with regard to the service of transports gratuitously or at reduced rates, to which the French Government has a right by the French steamers, none of which privileges are reserved to the Post-office on the British mail steamers. Besides, the Messageries Company undertakes to double the service if required, and reduce the subsidy from 32f to 30f per marine league. Several members or the Commission were in favour of a steamer every two weeks instead of four, which would place the French line on the same footing as the English with regard to the number of voyages annually, and if the Government has not adopted that recommendation it was only from consideration of the interests of the Treasury."

The Messageries Company first proposed a speed of 10 knots an hour for the Australian line, then 10½ as on the Indo-China line, but finally agreed to a speed of 11 2-10 knots in order to exceed the speed required of the English steamers under the new contract, which is 11 knots from Brindisi to Alexandria; 10½ from Suez to Point de Galle, and 11 1-10 from Point de Galle to Melbourne, or an average of 10 88-100 per hour. The Messageries Company engages to commence the service partially, a steamer every eight weeks, in 18 months, and to have the service complete in two years; it also engages to have at least four of the steamers for the new service, built in France. The contract is for 15 years, and the French Government reserves the right, when the present contract for the line to India and China expires, to concede a contract to any other company for a line from Marseilles to Aden and beyond, independently of the proposed line from Marseilles to Aden and Australia. To prove the necessity for the new line the preamble of the Bill remarks that England has already two lines of steamers to Australia, and that one from Hamburg will be shortly established. In 1860, before the creation of a French line of steamers to India and China, the total French trade with the far East amounted to only 97 millions of francs annually, of which 67 millions was with British India, and that with China, Cochin-China and Oceania together only 9½ millions. In 1879 the trade amounted to 400 millions, and Lyons has become the principal market for the silk trade with China and Japan. It is now intended to do for Australia what was formerly done for India and China.

The other principal conditions of the contracts are the following, in substance:—The distances between the places of call in marine leagues are—Marseilles to Port Said, 516; Port Said to Suez, 29; Suez to Aden, 436; Aden to Mahe (Seychelles), 465; Mahe to Reunion Island, 324; Reunion to Port Louis (Mauritius), 40 2-3; Port Louis to King George's Sound, 339; King George's Sound to Adelaide, 339; Adelaide to Melbourne, 160; Melbourne to Sydney, 192; Sydney to Noumea, 352 2-3;—total 3,963 marine leagues. The company will carry gratis the mail bags and all gold, silver, or copper coin for the State. The steamers cannot call without authorisation at other ports than those specified, nor receive or land goods or passengers elsewhere than in the ports of call. In case of the loss of a steamer a fresh one must be put in its place within 18 months. During the interval the Government may approve, in its place, of a steamer not fulfilling all the requirements, but which has a speed equal to the minimum required on the India-China line. In the trials of the steamers with a draught of water equal to a half-loading they must have a minimum speed of 13 2-10 knots an hour, two knots more than the regulation speed. The steamers must carry two classes of passengers; they may also carry third-class passengers. Steamers must be of a total displacement of not less than 5,000 tons. They must have a Crew, including Officers, of at least 90, as denominated. All Government passengers will have a right to a reduction of 30 per cent in the passage money, but their number must not exceed one-fourth of those carried, unless notice be given. Missionaries and hospital sisters, not exceeding 10 in number, must be carried gratis by requisition Convalescent or shipwrecked seamen, indigents, young men called for military service, and certain others named, must be carried at the rate of 7f per day. In case of war, the State may take over steamers, paying for them a price to be fixed by arbitration.

The Chambers of Commerce of both Bordeaux and Havre protest against the choice of Marseilles as the head of the new line, and pretend to have superior claims as a starting point. They have in consequence petitioned the Government to cause the new steamers to run from Havre, calling at Bordeaux, or from Bordeaux with a branch line to Havre, and to take the route by the Cape instead of that by the Suez Canal. These Ports argue that the steamers are intended to meet a commercial rather than a postal necessity, and that this would be better met by the steamers taking the Cape route, as they could thus serve both colonies instead of one only, and could bring home wool and skins, which are the chief articles of import from those countries. Bordeaux and Havre are, besides, the great markets for wool and skins in France. In addition, wines would form the principal article of export, and for that reason also Bordeaux should be preferred to Marseilles. The Committee in the Chamber to which the Bill was referred, however, recommended the adoption of the scheme as presented by the Government, and that decision will, no doubt, be confirmed by the Chamber, although efforts may be made by the deputies for the Atlantic and Channel Ports to deprive Marseilles of the new line.

Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and deobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pallid complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE

is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

The Improvement Works Commissioners, duly authorised by National Government decree of 28th December last, hereby calls for tenders to complete the Drainage and Water Works within the radius defined by the Law of the Province of Buenos Aires of 9th Sept. 1876, subject to the estimated cost sanctioned by the Law of November 8th 1878, on the following bases—

1st—Tenders must be presented, before the 15th July of this year, to the Secretary of the Commissioners, under seal, to be opened on 30th of same month, in presence of those interested, or their representatives.

2nd—Each tender must be accompanied by a receipt from the Treasury or the National Bank for 50,000 hard dollars, as a guarantee of good faith, as provided by Art. 15 of the Public Works Act. A tender once accepted, the contractor, as provided by Art. 23 of the same Act must give a guarantee, satisfactory to the Commissioners, for 250,000 hard dollars, or deposit said amount in the National Bank in cash or National Bonds at the price of the day.

3rd—The contractors will be bound to take from the Commissioners all the cement and bricks for the works, at 20 hard dollars per thousand bricks and 32 hard dollars per 1016 kilogrammes of cement (equal to an English ton) the bricks to be delivered at the stations of the Northern Railway.

4th—The materials which the contractors may import for the works must be inspected before being accepted, by the Commissioners, engineer, without any remuneration to the contractors. The Commissioners will obtain entry free of Customs duty for all materials for the works.

5th—The works must be constructed on the same plans and conditions as laid down for the tenders called for in February 1873.

6th—The bidders must bind themselves to finish the works within 20 months, to count from the day on which they receive the orders to begin them, subject to the penalties laid down in the conditions before mentioned, in case of not completing the works within the time specified, or of there being any difference or defect in construction.

7th—The contractors must take over all the materials, implements etc. which the Commissioners bought from Messrs Newman, Medici & Co, on cancelling their contract, and at the price paid by the Commissioners. The inventory of these material etc can be had from the Commissioners Secretary.

8th—Those who intend to send in tenders can obtain every information from the Secretary.

9th—The contractors must send, at their own cost and time, an engineer to superintend the erection of the machinery and buildings, subject to the plans and models the Commissioners may select.

10th. The Contractors must guarantee the power and efficient working of the machinery for one year, and be responsible for any breakage caused by bad workmanship or materials, this responsibility to cease when the broken part is repaired with material of good quality and put in its place.

11th—Separate bids can be presented for the construction and erection of the machinery, as well as for the other works.

12th—The Commissioners reserve the right of accepting the tender they consider best for the public interests, and rejecting them all if they see fit so to do.

Dr. J. COLLIS BROWNE'S

(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy or any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
